Pecan Information - 2012

Thank you for your interest in our 2012 Pecan crop.

Our orchard is entirely chemical-free to protect the environment, our neighbors, our family and our pets. We have not applied for organic certification, and therefore cannot use that designation.

At this time we are offering only shelled Pecans (halves and pieces) in one-pound and three-pound resealable packages. We welcome your feedback regarding other types and sizes of packaging desired.

Please call or email for current availability and/or other inquiries: 817-645-8283 or info@walkerorchards.com

Halves (Note: Some may be chipped or broken in handling.)

| | |
|-----------------------------|---------|
| One-pound resealable bags | \$9.50 |
| Three-pound resealable bags | \$27.50 |

Pieces (Think of them as “pre-chopped.”)

| | |
|-----------------------------|---------|
| One-pound resealable bags | \$9.50 |
| Three-pound resealable bags | \$27.50 |

UPS or U.S. Mail postage is charged at actual cost plus 20%.

Storage tips from the National Pecan Shellers Association:

- Shelled Pecans can be kept in the refrigerator for about nine months and for up to two years in the freezer.
- Pecans can be thawed and refrozen repeatedly during the two-year freezing period without loss of flavor or texture.
- Airtight containers, such as jars with lids, are best for storing Pecans in the refrigerator.
- Sealed plastic bags are best for storing Pecans in the freezer.
- After removal from cold storage, Pecans will stay good for an additional two months.
